6. To move back and forth between questions, candidates can use the "Next"/ "Previous" buttons or can click on the question number in the navigation panel on the left

7. The answers are saved whenever the candidate navigates, i.e. by clicking on 'Next' or 'Previous' or by clicking a question number in the navigation panel. The candidate can change the response any time before he/she submits the question paper or before the exam time is over

8. After the expiry of 60 minutes, the candidate will not be able to attempt any question. The answer of the candidate will be saved automatically by the online examination system even if he/she has not clicked the "Submit" button.

9. The clock has been set at the server and the countdown timer at the top right corner of your screen will display the time remaining for you to complete the exam. When the clock runs out the exam ends by default - you are not required to end or submit your exam.

10. The question palette at the right of screen shows one of the following statuses of each of the questions numbered:

-  You have not visited the question yet.
-  You have not answered the question.
-  You have answered the question.
-  You have answered the question but have marked the question for review.

The computer provided to me is in proper working condition. I have read and understood the instructions given above.
